

Thuraya SatSleeve

Transform your phone into a satellite smartphone!

What is the Thuraya SatSleeve?

- Thuraya SatSleeve adds a satellite connection to smartphones
- The SatSleeve App can be downloaded for free from the Apple App store and from Google Play
- The smartphone can then be used...
 - ... to make and receive calls in satellite mode
 - ... to send and receive SMSs in satellite mode
 - ... to send and receive emails in satellite mode
 - ... to use instant messaging in satellite mode
 - ... to use Apps in satellite mode (like WhatsApp, Twitter, Facebook, Weather, Stocks, etc.)
- Currently 2 SatSleeve models available:
 - [SatSleeve for iPhone](#) (adaptors for iPhone 4/4S and 5/5S available)
 - [SatSleeve for Android](#) (adaptors for Samsung Galaxy S3 and S4 available)

A true game changer

- The Thuraya SatSleeve is a new invention that was never seen in the industry before
- First consumer product in the satellite industry
- Offers easy and affordable access for private consumers and frequent travelers as well as corporate customers, NGOs, etc.
- Reduces the entrance barrier to satellite communications
- User can keep his customized smartphone, no need for new device

Thuraya SatSleeve Features

- **Calls and text messages in satellite mode**
Expand the horizons of your smartphone and use it in satellite mode whenever there is no terrestrial network available.
- **Email on the go**
Access emails in satellite mode, no matter where you are.
- **Take your favorite Apps with you**
Use your favorite Apps such as Facebook, Twitter, WhatsApp and many more, so you can chat and update your profile in places that are beyond terrestrial network reach.
- **User-friendliness**
Simply dock your smartphone into the SatSleeve to enjoy satellite connectivity. Available in 12 languages, the user-friendly SatSleeve App allows you to easily integrate your smartphone's address book with the swipe of your fingers.

Thuraya SatSleeve Features

- **Enhanced safety features**
Thuraya SatSleeve comes equipped with an Emergency Call button, allowing you to make an emergency phone call to one predefined number even without your smartphone docked.
- **Supported by the most robust and powerful satellite network**
Thuraya's satellite network is renowned for having the most reliable satellite coverage that covers approximately 160 countries or two-thirds of the globe. With the high penetration alerting capability (HPA), Thuraya SatSleeve enables you to receive a call notification even with the satellite antenna stowed, keeping you connected at all times.
- **Changeable smartphone adaptors**
Different smartphone adaptors for the SatSleeve provide you with the flexibility to use the SatSleeve with the latest smartphone models.

User friendly SatSleeve App

SOS button

- Dedicated SOS button on the main unit of the SatSleeve
- Even if no smartphone available a call can be established
- SOS button can be programmed with predefined number

Additional Features

- Full walk-and-talk capability in satellite mode
- High Penetration Alerting (HPA) - incoming call notification can be received even if the satellite antenna is stowed
- Smartphone's address book can be used for SAT calls, SMSs, emails
- SatSleeve App in 12 languages

How to set up the SatSleeve

How To: Attach smartphone to SatSleeve

1. Attach your smartphone to the docking adaptor and press the top side of the smartphone into the adaptor.

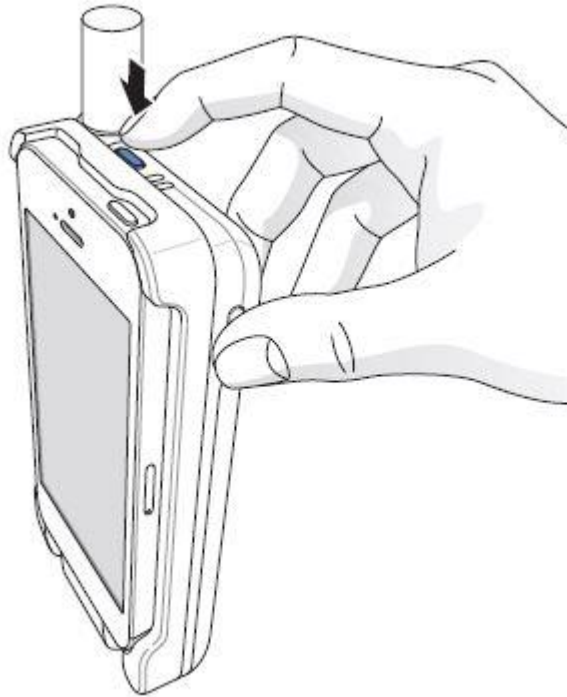

2. Place the docking adaptor onto the orange line of the SatSleeve main unit. Slide down the docking adaptor.

How To: Turn on the SatSleeve

Press and hold the power button down for about 2 seconds to power on the Thuraya SatSleeve. The blue LEDs will blink and you will hear a beeping sound.

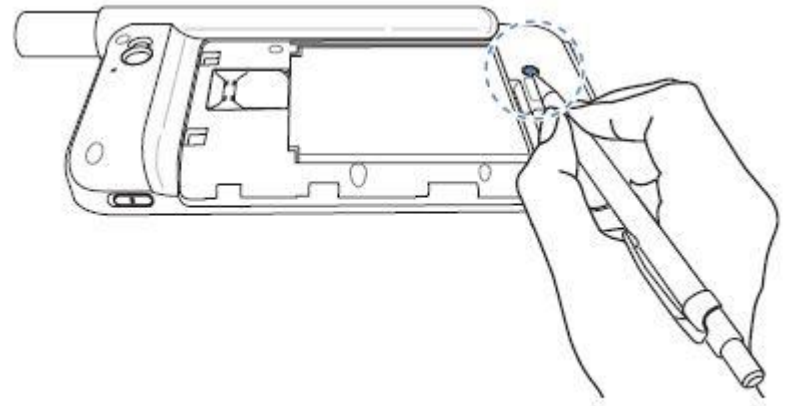

How To: Pair smartphone and SatSleeve

1. On your smartphone, go to **Settings** > **Bluetooth** > **On** to activate Bluetooth.

2. Press the Bluetooth pairing button on the back of the SatSleeve with a pointed object such as a pen or the end of a paper clip until the SatSleeve shows up under 'Devices' on the smartphone.

How To: Pair smartphone and SatSleeve (cont'd)

3. Select the SatSleeve from the devices list and check the Bluetooth icon displayed on the top of your smartphone screen when the pairing is complete

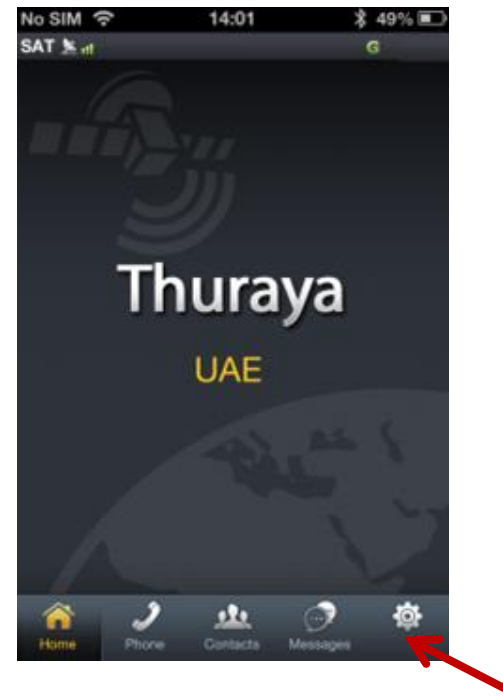

How To: Enable data on the SatSleeve

1. Open the SatSleeve app

2. Tap the bottom right button 'More' or 'Settings'

How To: Enable data on the SatSleeve (Cont'd)

3. Tap Satellite Data

4. Turn Satellite Data On

How To: Enable data on the SatSleeve (Cont'd)

5. Leave the SatSleeve application, go to your smartphone settings and turn on Wi-Fi, then select your SatSleeve from the network list to connect your smartphone to the SatSleeve (the default password is 12345678).
